An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

In the second line of claim 40, "15" has been changed to --45--.

In line 3 of claim 40 after "comprising:" the following has been added: --the items are either weighed and/or quality/type graded before being placed on the conveyor, or weighed and/or quality/type graded on a first part of the conveyor; the items pass the sensors placed above or along the conveyor; the sensors register the size and/or lateral and longitudinal position of the items on the conveyor, and at a same time, the sensors provide a control signal to the control unit of the apparatus; before the items reach the discharge arm, the discharge arm is turned from a passive position to an active angular position in relation to the conveying direction of the conveyor; and the discharge arm leads the items to a predetermined discharge position along the side of the conveyor.--

Authorization for this examiner's amendment was given in a telephone interview with Donald E. Stout on 08/18/2008.
